## Volunteer Fundraisers Needed

### Are you a student studying at a University or College in the UK?

We are looking to recruit student volunteer fundraisers to work within their University or College. Full training and support will be given to the students and we are only asking that they raise a £1 from as many students as possible within their locality. Do you know of any students who might be interested in applying to work for us on a voluntary basis? If so, please point them in our direction.

### Benefits to you as a Student Volunteer Fundraiser

- An opportunity to be involved in an exciting new national project which will provide you with networking opportunities
- Providing children with a chance to learn to read, write and other life enhancing skills
- An opportunity to display responsibility, motivation and organisational skills
- Additional experience to add to a CV as well as a reference for prospective employers
- The opportunity to apply to work as a volunteer in a school in Dhaka, Bangladesh
